I am just graduating from the UNC-Charlotte Full-Stack Programming Boot Camp where I learned many javascript frameworks including React, Handlebars, Express, Node, Mongoose and more. It has been one of the more challenging and rewarding experiences of my life and I am excited to see where I can take my career from here.

## Professional Experience

### Customer Advocate

Image First | December 2020 - Present

Deliver linen to hospitals mainly in Charlotte. Build relationships based on trust and communication to keep up with providers needs to ensure all of their patients have a quality experience.

### Shipping Supervisor

Ashley Furniture | March 2016 - December 2020

Worked my way up from loading trucks to managing 30+ employees to meet hourly/daily/weekly inventory goals in a very physically and mentally demanding environment.

Was chosen to lead the inaugural e-commerce department which was formed at the onset of covid.

---
